Curriculum Vitae

Profile

Senior cross-asset strategist with 12+ years in portfolio management, investment strategy and private banking. My key strength is communication: I translate complex market themes into clear, engaging messages and, building on the house view, reach a broad audience of private bankers, clients and senior stakeholders. I have worked on every side of the house view: forming and implementing it as portfolio manager and strategist at H&A Lampe and Deka Investment, explaining it to UHNW clients at Banque Internationale à Luxembourg, and today shaping and communicating it at Quintet Private Bank. There, I lead the tactical asset allocation process and have become the go-to investment voice and a trusted partner for private banking teams across Europe. My views start from the macro cycle and are grounded in research, with a PhD in Finance due in November 2026. A team player who contributes openly and stands behind joint decisions.

Professional Experience

02/2023 - Present

Executive Director | Senior Cross-Asset Strategist, Quintet Private Bank, Luxembourg

- Follow the global economy and markets (growth, inflation, central banks, valuations) and turn this into tactical views on equities, bonds, currencies and commodities
- Lead the tactical asset allocation process in the Asset Allocation team: build Quintet's TAA positioning (6–12 months) for the discretionary portfolios, test it with scenarios, models and indicators, and give input on SAA
- Lead asset allocation discussions with internal research and BlackRock, and present the conclusions to the Investment Committee for the EUR 36.5bn discretionary book
- Present the house view to a broad audience, from the weekly call for private bankers across Quintet's European banks to client meetings, turning complex themes from asset allocation to sector views into clear messages; trusted partner for advisors and relationship managers and trainer for front-office teams
- Work closely with research and investment colleagues across the Group, as part of the Luxembourg team that steers Quintet's European banks
- Represent the house view at client events, panels and webinars; write house-view publications and contribute to media requests
- Voting member of the Risk Assessment Council: review risk and performance of the discretionary portfolios against benchmarks
- Founded and lead the Bespoke Investment Solutions team for family offices and UHNW clients; owned change projects such as the 2025 private markets launch with BlackRock and a Python analytics platform

Achievements: Became the first port of call for investment questions from front-office teams across Quintet's European banks; built Bespoke Investment Solutions from scratch into a driver of mandate growth

Macro | Cross-Asset Strategy | TAA | House View | Investment Committee

08/2021 - 01/2023

Senior Investment Advisor, Banque Internationale à Luxembourg, Luxembourg

- Turned the house view into investment ideas and portfolio proposals for international UHNW and family office clients (assets above EUR 20m), across all asset classes
- Presented market outlooks and investment themes in client meetings and to family office investment committees, in plain language
- Worked closely with relationship managers on new clients and pitches, and learned first-hand what private bankers need in front of a client
- Reviewed and rebalanced client portfolios in line with the house view and each client's risk profile (MiFID II)
- Built an idea-generation process that combined factor screens with investment committee views

Achievements: Investment advisor for a EUR 3bn UHNW book; grew advisory mandates through clear, client-focused advice

House View | Client Communication | Cross-Asset | Private Banking

07/2019 - 07/2021 | **Portfolio Manager | Fixed Income, Deka Investment GmbH, Frankfurt**
- Managed a EUR 3bn fixed income book (UCITS funds and institutional mandates), turning views on growth, inflation and central banks into duration, curve, credit and FX positions
- Led quarterly investment committee meetings with institutional clients on positioning, performance and market outlook; supported mandate pitches and fund rating interviews
- Designed and launched an emerging market hard currency strategy, from first idea to client presentation

Achievements: Won a EUR 100m fixed income mandate in a competitive pitch; the emerging market strategy became a core offering

Macro & Rates | Credit | UCITS | Portfolio Management

07/2016 - 09/2018 | **Portfolio Manager & Investment Strategist | Multi Asset, H&A Lampe Private Bank AG, Frankfurt**
- Split role as portfolio manager and investment strategist: analysed the economy and markets, contributed to the bank's investment view and turned it into multi-asset positioning
- Managed a EUR 650m book of discretionary multi-asset mandates: tactical allocation, rebalancing and overlays across funds, ETFs, equities and structured products
- Built a risk overlay with FX hedges and options to limit losses in volatile markets
- Presented market outlooks and performance reviews at investment committees and to private clients

Achievements: Co-developed in-house portfolio models that strengthened the bank's discretionary multi-asset offering

Macro | Investment Strategy | Multi-Asset | TAA

10/2015 - 06/2016 | **Client Relations Manager | Sales (External Consultant), Janus Henderson Investors, Frankfurt**
- Supported institutional client coverage and product pitches in Germany and Switzerland with risk and performance analysis

01/2011 - 08/2014 | **Working Student, Asset Management & Consulting, Germany & Luxembourg**
- Lyxor Asset Management (Société Générale), Deka Investment, PwC (Wealth Management research), RWE Supply & Trading

Education
